Technology for Education & Green Energy-(TEGE)

(A non-governmental, non-profit organization)

TEGE - About Us

Technology for Education & Green Energy (TEGE) is a registered non-profit organization dedicated to transforming lives through the power of digital literacy and sustainable energy. Founded with the vision of creating inclusive and empowered communities, TEGE focuses on two critical pillars of development: Information and Communication Technology (ICT) education and green energy advocacy.

We believe that access to technology and clean energy are not luxuries, but fundamental rights that can unlock economic opportunities, improve education, protect health, and promote environmental sustainability in underserved communities.

**BRINGING IDEAS TO LIFE

TEGE - Mission & Vision Statement

2. Vision Statement

To create a future where young students are empowered with ICT skills and where communities embrace sustainable green energy solutions to enhance education, environmental stewardship, and quality of life.

3. Mission Statement

Our mission is twofold:

- To promote and empower ICT education in schools, particularly targeting young pupils in undeserved areas.
- To advocate for the adoption of clean and renewable energy technologies, especially for household and educational use, to advance health and environmental sustainability.

TEGE - Core Objectives

- 01** Introduce and promote ICT education in rural and underprivileged schools.
- 02** Provide practical training and workshops to equip students with essential digital skills.
- 03** Raise awareness and support the adoption of green energy technologies, especially clean cooking solutions.
- 04** Collaborate with educational institutions, government bodies, and private partners to implement sustainable development initiatives.
- 05** Contribute to climate action and environmental conservation through renewable energy programs.

**TRANSFORMING
CONCEPTS
INTO REALITY
AND
NURTURING
INNOVATION**

TEGE - Areas of Focus

- 01** **ICT for Education:** Delivering digital literacy and computer training to students and teachers.
- 02** **Green Energy:** Promoting Eco-friendly technologies like solar power and clean cook stoves.
- 03** **Community Empowerment:** Strengthening local capacity through training, engagement, and innovation.
- 04** **Youth Development:** Equipping young people with tools and skills for the future.
- 05** Contribute to climate action and environmental conservation through renewable energy programs.

**TRANSFORMING
CONCEPTS
INTO REALITY
AND
NURTURING
INNOVATION**

TEGE - Programs & Activities

- 01** ICT Training Workshops: Hands-on sessions on computer basics, coding, internet use, and digital tools in rural schools.
- 02** Green Energy Campaigns: Community outreach promoting clean cooking solutions and renewable energy options.
- 03** School Partnerships: Collaborating with educational institutions to integrate ICT and energy programs into the curriculum.
- 04** Innovation Hubs: Establishing local tech spaces for learning, creativity, and community development.
- 05** Capacity Building: Training educators and community leaders in ICT and energy solutions.

**TRANSFORMING
CONCEPTS
INTO REALITY
AND
NURTURING
INNOVATION**

TEGE - Governance & Leadership

TEGE is guided by a committed Board of Directors responsible for strategic oversight and good governance. The operational leadership includes:

Chief Executive Officer – Overall leadership and representation

Finance & Administration Officer – Financial management and compliance

Program Manager – Oversees a group of related projects (a program).

Project Manager – Oversight of program implementation and reporting

ICT Education Coordinator – Design and execution of ICT training programs

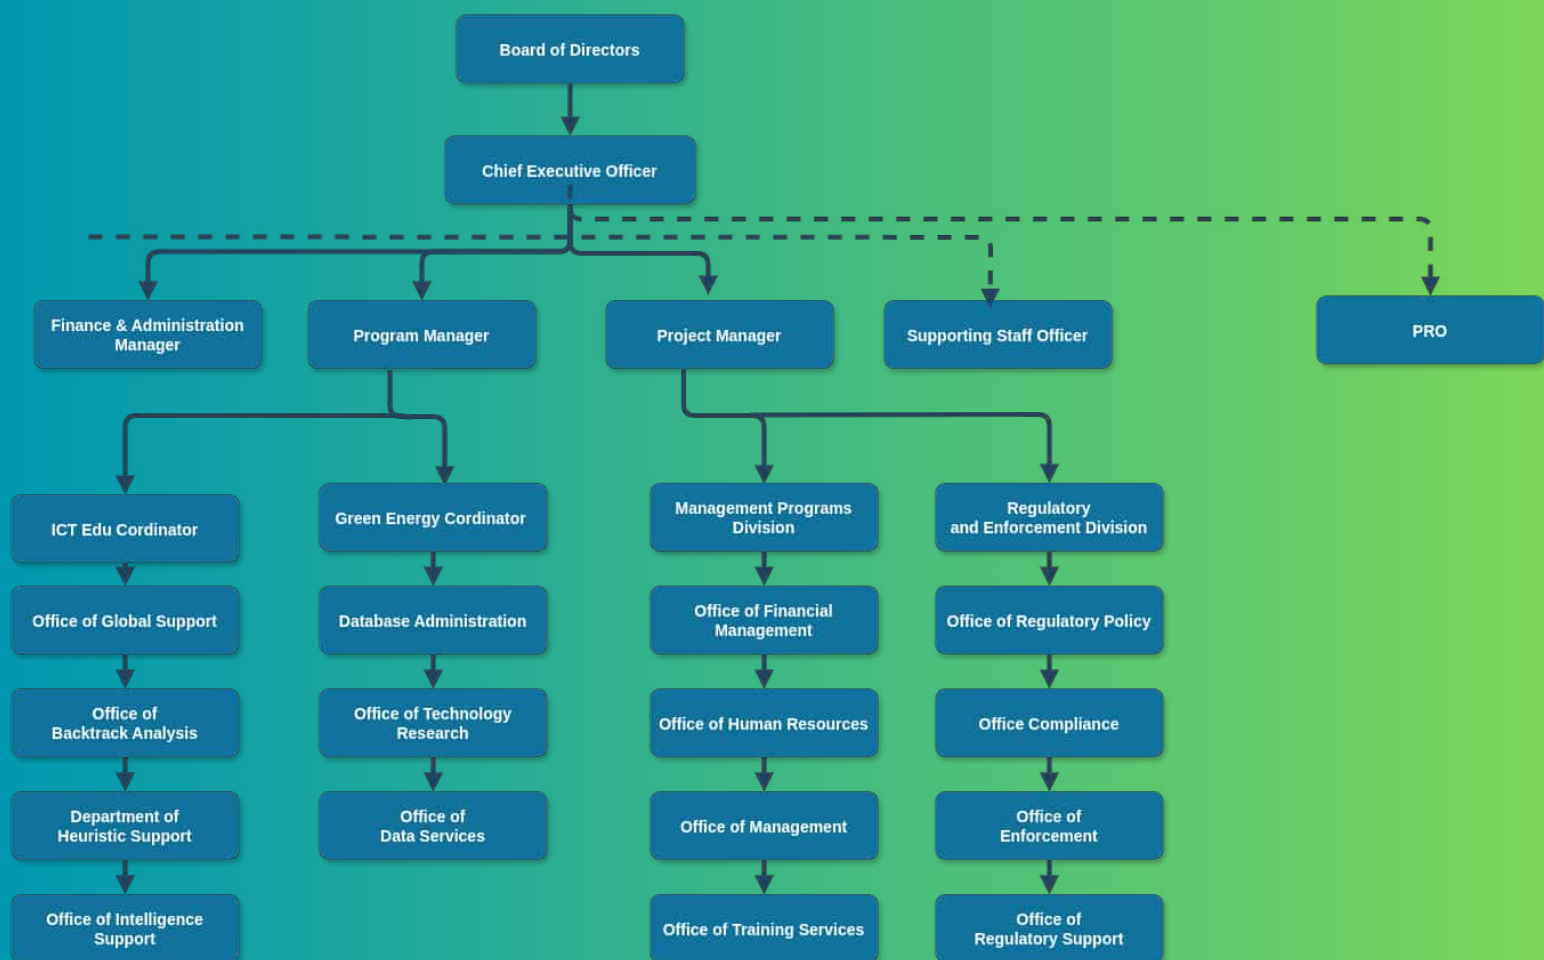

Green Energy Coordinator – Management of energy initiatives and campaigns

Supporting Officer – Coordination of logistics, partnerships, and project support
